- CIMA — Student Member

PROFESSIONAL SUMMARY

Results-driven Financial Systems Analyst with 6 years of experience bridging finance operations and technology implementation. Proven track record in automating reconciliation processes, implementing ERP integrations, and building reporting infrastructure that reduces manual workload and improves data accuracy. Experienced across renewable energy, financial services, and professional services sectors. Adept at translating complex financial requirements into practical system solutions.

WORK EXPERIENCE

Financial Systems Analyst

SunPower Africa (Pty) Ltd | March 2022 – Present

- Designed and implemented automated reconciliation workflows between SAP and the company's energy trading platform, reducing month-end close time by 3 days
- Built Power BI dashboards for executive reporting covering weekly cash flow, project cost tracking, and PPA revenue forecasting
- Led the integration of Sage Evolution with the operations management system, eliminating manual data entry across 4 departments
- Developed Excel VBA tools for bulk invoice processing and intercompany eliminations
- Trained 12 finance team members on new system workflows and reporting tools
- Led full SAP FI/CO and energy trading platform integration — reduced reconciliation errors by 87% and eliminated 40+ hours of monthly manual matching work
- Designed and deployed Power BI dashboard suite for C-suite reporting — replaced a 3-day monthly manual report process with real-time visibility
- Built n8n workflow to automate supplier invoice processing from shared mailbox through PO matching to SAP draft creation — reduced manual processing time by 70%
- Built n8n workflow for fixed asset additions — auto-creates SAP asset master data records when operations logs new assets

Management Accountant

Protea Financial Services | January 2020 – February 2022

- Managed monthly management accounts for 8 client entities across manufacturing and retail sectors
- Performed detailed variance analysis and prepared board-level financial commentary
- Implemented Xero for 3 SME clients including chart of accounts design and integration with Dext for automated document capture
- Reconciled multi-currency accounts and prepared supporting schedules for annual audit
- Led full Xero implementation for a 12-branch retail group including bank feeds, supplier management, and automated invoice capture via Dext — reduced bookkeeping hours by 60% and improved month-end accuracy to 99.3%

Junior Accountant

BrightPath Consulting | June 2018 – December 2019

- Processed accounts payable and receivable for 15+ client accounts
- Performed bank reconciliations and prepared monthly trial balances
- Assisted with VAT submissions and SARS correspondence
- Maintained fixed asset registers and prepared depreciation schedules
- Identified process inefficiencies early in career and developed Excel tools to systematise repetitive tasks
